SUMMER INTERNSHIPS

Microsoft - Software Engineer Intern - Windows Server Quality

Summer 2016 | Washington

- Built a diagnosis tool to be used by Fortune 500 companies to troubleshoot their Windows Server deployments
- Reduced time to diagnose customer's servers from 3 hours to 15 minutes by using native C# libraries
- Helped 3 other Microsoft teams adopt this successful tool through a series of internal presentations

Microsoft - Explorer Software Engineer Intern - Edge Browser Team

Summer 2015 | Washington

- Constructed a website for Microsoft management to track Edge user engagement worldwide
- Decreased management's feedback loop from 1 ½ days down to a 4 second webpage reload
- Increased web page query speed 2x by creating a dynamic SQL query system using C#, Linq, and JavaScript

PART-TIME STARTUPS

Photage – Full-stack web developer – *Software Development Team*

School Year 2015 - 2016 | Utah

- Architected and built the company's admin backend that processes 100% of their revenue generating products
- Designed admin site from scratch using Node.js, Express, React.js while hosting on Amazon Web Services
- Coordinated front-end API development between in-house developers and an external iPhone development firm

Hydrometrix – Full-stack iOS Developer – Software Development Team

School Year 2014 - 2015 | Utah

- Polished the existing Objective-C iPhone app user experience by condensing the number of app pages by 33%
- Maintained the company's Java production server and database as the number of accounts grew by 200%
- Saved dozens of hours of server downtime by creating an automatic warning system with Python

PERSONAL PROJECTS/HACKATHONS

Seattle Children's Hospital Tonsillectomy App – Microsoft Hackathon

Summer 2016 | Washington

- Created a native iOS app to help children recover from tonsillectomy surgery by providing a recovery timeline
- Tested the app design with hospital doctors and incorporated feedback into the iOS/Android apps
- Featured on the Seattle Times Business Paper front page

City Issue Tracker iOS App - BYU Open Source Lab

Summer 2015 | Utah

- Built an iOS app to photograph graffiti and send detailed reports directly to a city's 311 department
- Developed natively using Swift, iOS Camera API, iOS Geolocation API, and MVC development patterns
- Selected to present at the BYU Civic Engagement Research Conference

EXTRACURRICULAR EXPERIENCE

BYU Developers Club – President

School Year 2015 - Present | Utah

- Grew the club from dormant to 60+ monthly members and 5 leadership members in under six months
- Lead external relations by raising \$20,000+ in donations and starting a resume bank involving 100+ companies

Other

1st Place State Science Fair – Computer Science

- School Year 2010 2011 | *Utah*
- DJed on stage in front of 2000 people at a private Maroon 5 concert

Summer 2015 | Washington
